This week I have a fun fold card for you. I have used the beautiful Hand Penned Petals bundle and the Hand Penned DSP, but you could customise this design any way you want. It's super easy, but the fin fold gives a little extra WOW.

Instructions

We will be making the card just under 6" square (14.8cm square) so it can fit nicely in a 6x6" square envelope. These are available in stationery stores, or if you have our old envelope maker you can make your own.

1. Start with a piece of Crumb Cake cardstock 14.8 cm x 29.6 cm. Score in half on the long end so you end up with a 14.8cm square card.
2. Score the front of the card diagonally from the top right to the bottom left.

3. Cut a square of Hand Panned DSP 14.3cm square, and then cut in half diagonally.
4. Adhere each piece to the front of the card.

5. Cut a 14.3cm square of one of the more subtle reverse patterns of the DSP, and adhere this to the right hand inside piece of the card.
6. Cut a triangle of basic white cardstock (14.3cm on top and left side) and a triangle of DSP (14.3cm on left and bottom side) and adhere to the two sections of the left hand inside piece of the card.

7. Stamp your sentiment (mine is from Peaceful Moments stamp set and is stamped in Basic Gray) and cut out (I used the Stitched Rectangle Dies).
8. Cut a piece of coordinating cardstock that is 3mm larger on all sides.
9. Adhere both of these pieces with Dimensionals to the bottom right corner of the inside of the card (mine is 1cm away for the card edge on both sides). It's important to use Dimensionals so the card front has something to lean against.

10. Stamp the outline image from Hand Penned petals in Basic Gray. Stamp the flowers in Highland Heather (stamped off once) and the leaves in Mint Macaron (stamped off once).
11. Cut the image out with the coordinating dies.
12. Cut the largest plain edged and scalloped edge dies in the Layering Circle Dies, from patterned paper and Blushing Bride cardstock respectively.

13. Adhere the patterned paper to the scalloped circle with Snail adhesive, and then attach the die cut image over the top with Dimensionals.
14. Attach this circle to the front centre of the card with Dimensionals BUT only add the Dimensionals to the section that attaches to the bottom/right triangle.
